MISSION & VISION

Our mission is to make the farmers lead international markets while educating the prominence of organic farm produce using modern practices. We envision evolving the current Indian agricultural Industry with modern techniques to promote empowerment among our farmers, international growth of Indian produced farm products and sustainability of Indian soil.

DIRECTOR'S MESSAGE

"The most powerful way to eradicate hunger is by putting your time, efforts and investment in the right form of agriculture."

A B O U T

FUTURE AGRI AND FOODS

Future Agri and Foods Pvt. Ltd is the pioneer of organic farm products, agro commodities and the next generation sustainable agricultural plan. We are producers, processors and exporter of authentic organic farm products from India to the world. Our company is leading the current agro trade among the four major continents of the globe: Europe, Middle East, North America and Australia. Future Agri and Foods are leading suppliers of Cereals, Spices and Herbs, Flours, Edible Oils, Nuts, Oil Seeds, Pulses and Lentils. At Future Agri and Foods Pvt. Ltd, we have embarked in the remote corners of India and has helped many organic farmers to grow internationally for authentic and pure organic products. Today, we have gained a reputation as the most reliable Indian supply chain partner for global buyers with our offices in India and Overseas.

OUR APPROACH

At Future Agri and Foods, we are continuously investing our time and efforts in the efficient model of modern agriculture leading the next generation of farmers. We have realised the importance of evolving and innovating the largest industry of India which will undoubtedly promote sustainable agriculture tomorrow.

OUR VALUES

- We put our farmer's first
- We choose to save a better world for the next generation
- We value authenticity
- We believe in originality
- We stand for sustainable development
- We believe in Contributing to the Society

FARMER'S SOIL TO THE NEXT GEN WORLD

We are the voice of farmers leading their way towards sustainability and growth in the virtuously growing agricultural industry of India. The success of our journey is solely marked by the high spirits of Indian farmers delving their way into the International market. Seemingly in the current vogue, the world is moving towards sustainability, growth and advancement towards modern agriculture. We have put our prominent efforts to create a plan to educate and promote Indian organic farmers to reach international markets through the fertile soil of India. Prominently, India has played a major role in global food security with diverse terrain from extreme cold, moderate to extremely hot. Due to which India is rich in flora and has contributed to a lot of different crops such as cereals, spices, herbs, oilseeds, pulses grains and fruits etc. A lot of research and modern agriculture practices have taken place in India and the same has been adopted by the world. This has helped Indian farmers to produce high-quality produce every year. Keeping an optimistic approach towards organic farming, we are growing modestly towards our vision of empowerment and growth, accomplishing our mission to invest rightly in agro commodities and organic produce for international markets.

OUR STORY

We have all major International Certifications which reflects our quality standards. At Future Agri and Foods, a major foundation of our success lies in the quality standards of our products. These prodigious standards are marked with world level certifications, such as USDA, EU Organic, GMP, ISO 22000 & FSSAI
